OBJECTIVE

Motivated and detail-oriented aspiring Full Stack Developer with strong skills in C, Python, Java, HTML, and CSS, currently enhancing expertise in Java. Seeking an opportunity to apply technical knowledge and problem-solving abilities to develop efficient, user-focused software solutions.

EDUCATION

B.Tech in Electronics communication and engineering, Christu Jyothi Institute of Technology and Science, Jangaon, yeshwanthapur, Telangana **Expected 2026**
CGPA: 7.97/10 TG, India

Intermediate (MPC), ABV Junior College **2020 - 2022**
Percentage: 84.4% TG, India

SKILLS

- **Programming Languages:** Python, Java, html, css , learning java fullstack
- **Soft Skills:** Problem Solving, Critical Thinking, Team Collaboration, Communication, Time Management

PROJECTS

IoT-based Agriculture Protection System

- Developed a smart system to protect crops from animals using Arduino, LDR sensors, GSM SIM900A and LCD 12C
- Real-time animal detection triggers alert via buzzer and SMS, displaying status on LCD
- **Future Scope:** AI-based detection, smart deterrents, mobile app integration, and cloud analytics

Swiggy Application(clone/prototype)

- Developed a front page simulation of Swiggy using Java.
- Implemented menu navigation and options using switch statements.
- Focused on basic user interface and interaction to demonstrate functional design.

CERTIFICATIONS

- Python for Non-Beginners – (LinkedIn Learning)
- Completed the Postgraduate Diploma in Computer Applications with a Grade 'A' in Oct 2022. –PGDCA,IIET
- AR/VR Technologies – National Institute of Technology (NIT), Warangal
